SC150-EN ISMS Auditor/Lead Auditor ISO/IEC 27001:2022 (IRCA 2575)

Kurzbeschreibung:

Participants in the course "Information Security Management Systems Auditor/Lead Auditor" learn effective auditing to ensure that the security guidelines for the company and its customers are conscientiously followed according to the standards of ISO 27001:2022.

The workshop **SC150 ISMS Auditor/Lead Auditor ISO 27001:2022 (IRCA 2575)** consists of a combination of instruction, group work, and role play.
The course is conducted in German, with English materials and an English examination.
The approximately 2-hour examination, which consists of both multiple-choice questions and personal explanations, takes place on the last day.

IRCA Training Organization ID: 01200306
IRCA Course ID: 2575
IRCA Course Code: PR373: ISMS ISO/IEC 27001:2022 Lead Auditor

Examination Duration:
Native Speaker: 1.45 hours
Non-Native Speaker: 2.15 hours

Zielgruppe:

The courses **SC150 ISMS Auditor/Lead Auditor ISO 27001:2022 (IRCA 2575)** are addressed to all those who

- want to establish a formal information security management system in compliance with ISO 27001:2022
- want to expand their knowledge and skills as auditors
- want to provide consulting services for ISO 27001:2022 certifications as consultants
- are professionally active in the field of IT and quality management

Voraussetzungen:

If you wish to successfully complete the course **SC150 ISMS Auditor/Lead Auditor ISO 27001:2022 (IRCA 2575)**, you should have a solid command of information security tools. Extensive knowledge in the areas of information security (e.g., necessities, responsibilities, management commitment, risk assessment, incident management) and management system processes (PDCA), as well as in-depth knowledge of standards (requirements from ISO 27001/2, terminology & definitions ISO 27000) are essential to keep up with the learning pace and course content.

To prepare for the training, we recommend attending the following courses in advance:

- **SC100 Fundamentals of Cyber Security** (technical and normative fundamentals)
- **SC120 ISMS Implementation according to ISO/IEC 27001:2022** (basic course on the ISO27001 standard)
- **SC185 (Tech.) Practical Implementation of Information Security (ISO 27001 / ISO 27002)** (for a practical understanding of ISMS implementation)

- Optional, if you are considering a role as an internal auditor: **SC135 Internal Auditor**
- Optional, if you are aiming for a role as an auditor in the KRITIS sector: **SC160 Additional Audit Procedure Competence for § 8a BSIG (Critical Infrastructure) Considering NIS2**
- Optional, if you want to work in companies requiring BSI Basic Protection: **SC550 BSI IT Basic Protection Practitioner**

Failure to meet the course prerequisites may negatively impact continuous assessment.
Passing the continuous assessment is a prerequisite for the successful completion of the course. The final written exam may also include questions on individual requirements of ISO 27001 or questions on prerequisite knowledge.

If you are unsure whether you meet the requirements, please contact us before registration.

If you are unsure whether an in-person or online course is better suited for you, you can find a description of our course formats here. The technical requirements for an online course can be found here.

Please note that the use of a webcam is required by IRCA for online courses.
To participate in the exam, you need a photo ID for identity verification, such as an identity card, passport, or driver's license.

Sonstiges:

Dauer: 5 Tage

Preis: 2950 Euro plus Mwst.

Ziele:

Effective auditing determines the success of information security management systems: This makes auditing a challenge that combines complex issues with a high level of responsibility.

The five-day intensive course **SC150 ISMS Auditor/Lead Auditor ISO 27001:2022 (IRCA 2575)** prepares participants for qualification as an ISO 27001:2022 Auditor/Lead Auditor and trains them in conducting audits for a certification body.
